

### Publication list

1. Casellas J, Piedrafita J. 2002. Correction factors for weight productive traits up to weaning in the Bruna dels Pirineus beef cattle breed. *Animal Research* 51:43-50.
2. Casellas J, Jiménez N, Fina M, Tarrés J, Sánchez A, Piedrafita J. 2004. Genetic diversity measures of the bovine Alberes breed using microsatellites: variability among herds and types of coat color. *Journal of Animal Breeding and Genetics* 121:101-110.
3. Casellas J, Rauw WM, Piedrafita J, Sánchez A, Arqué M, Noguera JL. 2004. Viability of Iberian × Meishan F2 newborn pigs. I. Analysis of physiological and vitality variables. *Journal of Animal Science* 82:1919-1924.
4. Casellas J, Noguera JL, Varona L, Sánchez A, Arqué M, Piedrafita J. 2004. Viability of Iberian × Meishan F2 newborn pigs. II. Survival analysis up to weaning. *Journal of Animal Science* 82:1925-1930.
5. Varona L, Casellas J, Piedrafita J, Sánchez A, García-Casado P, Arqué M, Noguera JL. 2005. Bayes Factor analysis for the genetic background of physiological and vitality variables of F2 Iberian × Meishan newborn piglets. *Journal of Animal Science* 83:334-339.
6. Casellas J, Casas X, Piedrafita J, Manteca X. 2005. Effect of medium- and long-chain triglyceride supplementation on small newborn-pig survival. *Preventive Veterinary Medicine* 67:213-221.
7. Tarrés J, Casellas J, Piedrafita J. 2005. Genetic and environmental factors influencing mortality up to weaning of Bruna dels Pirineus beef calves in mountain areas. A survival analysis. *Journal of Animal Science* 83:543-551.
8. Tomás A, Casellas J, Ramírez O, Pérez-Enciso M, Rodríguez C, Noguera JL, Sánchez A. 2006. Polymorphisms of the porcine dopamine  $\beta$ -hydroxylase gene and their relation to reproduction and piglet survivability in an Iberian × Meishan F2 intercross. *Animal Genetics* 37:279-282.
9. Tomás A, Frigo E, Casellas J, Ramírez O, Óvilo C, Noguera JL, Sánchez A. 2006. An association study between polymorphisms of the porcine bone morphogenetic protein receptor type 1 $\beta$  (BMPR1 $\beta$ ) and reproductive performance of Iberian × Meishan F2 sows. *Animal Genetics* 37:297-298.
10. Tomás A, Casellas J, Ramírez O, Muñoz G, Noguera JL, Sánchez A. 2006. High amino acid variation in the intracellular domain of the pig prolactin receptor (PRLR) and its relation to ovulation rate and piglet survival traits. *Journal of Animal Science* 84:1991-1998.

11. Ghirardi JJ, Caja G, Garín D, Casellas J, Hernández-Jover M. 2006. Evaluation of the retention of electronic identification boluses in the forestomachs of cattle. *Journal of Animal Science* 84:2260-2268.
12. Casellas J, Piedrafita J. 2006. Bayes factor for testing the genetic background of quantitative threshold traits. *Journal of Animal Breeding and Genetics* 123:301-306.
13. Casellas J, Tarrés J., Piedrafita J., Varona L. 2006. Parametric bootstrap for testing model fitting in the proportional hazards framework: An application to the survival analysis of Bruna dels Pirineus beef calves. *Journal of Animal Science* 84:2609-2616.
14. Ghirardi JJ, Caja G, Garín D, Hernández-Jover M, Ribó O, Casellas J. 2006. Evaluation of different sizes of electronic identification boluses in the forestomachs of sheep. *Journal of Animal Science* 84:2865-2872.
15. Fina M, Casellas J, Manteca X, Piedrafita J. 2006. Analysis of temperament development during the fattening period in the semi-feral bovine calves of the Alberes Massif. *Animal Research* 55:389-395.
16. Casals R, Caja G, Pol MV, Such X, Albanell E, Gargouri A, Casellas J. 2006. Response of lactating dairy ewes to various levels of dietary calcium soaps of fatty acids. *Animal Feed Science and Technology* 131:312-332.
17. Casellas J, Piedrafita J, Varona L. 2007. Bayes factor for testing between different structures of random genetic groups: A case study using weaning weight in Bruna dels Pirineus beef cattle. *Genetics, Selection, Evolution* 39:39-53.
18. Casellas J, Caja G, Such X, Piedrafita J. 2007. Survival analysis from birth to slaughter of Ripollesa lambs under semi-intensive management. *Journal of Animal Science* 85:512-517.
19. Casellas J, Caja G, Bach R, Francino O, Piedrafita J. 2007. Association analyses between the prion protein locus and reproductive and lamb weight traits in Ripollesa sheep. *Journal of Animal Science* 85:592-597.
20. Casellas J, Caja G, Ferret A, Piedrafita J. 2007. Analysis of litter size and days to lambing in the Ripollesa ewe. I. Comparison of models with linear and threshold approaches. *Journal of Animal Science* 85:618-624.
21. Casellas J, Caja G, Ferret A, Piedrafita J. 2007. Analysis of litter size and days to lambing in the Ripollesa ewe. II. Estimation of variance components and response to phenotypic selection on litter size. *Journal of Animal Science* 85:625-631.

22. Casellas J. 2007. Survival quantitative trait loci fine mapping by measuring and testing for Hardy-Weinberg and linkage disequilibrium. *Genetics* 176:721-724.
23. Casellas J, Caja G, Piedrafita J. 2007. Genetic determinism for within-litter birth weight variation and its relationship with litter weight and litter size in the Ripollesa ewe breed. *Animal* 1:637-644.
24. Casellas J. 2007. Bayesian inference in a piecewise Weibull proportional hazards model with unknown change points. *Journal of Animal Breeding and Genetics* 124:176-184.
25. Casellas J, Varona L, Muñoz G, Ramírez O, Barragán C, Tomás A, Martínez-Giner M, Óvilo C, Sánchez A, Noguera JL, Rodríguez MC. 2008. Empirical Bayes factor analyses of quantitative trait loci for gestation length in Iberian × Meishan F2 sows. *Animal* 2:177-183.
26. Casellas J, Ibáñez-Escriche N, Martínez-Giner M, Varona L. 2008. GEAMM v.1.4: a versatile program for mixed model analysis of gene expression data. *Animal Genetics* 39:89-90.
27. Casellas J, Tomás A, Sánchez A, Alves E, Noguera JL, Piedrafita J. 2008. Using haplotype probabilities in categorical survival analysis: a case study with three candidate genes in an Iberian × Meishan F2 population of newborn piglets. *Journal of Animal Breeding and Genetics* 125:5-12.
28. Fina M, Casellas J, Tarrés J, Bartolomé J, Plaixats J, Such X, Jiménez N, Sánchez A, Piedrafita J. 2008. Characterization and conservation programme of the Alberes cattle breed in Catalonia (Spain). *Animal Genetic Resources Information* 43:1-14.
29. Varona L, Ibáñez-Escriche N, Quintanilla R, Noguera JL, Casellas J. 2008. Bayesian analysis of quantitative traits using skewed distributions. *Genetics Research* 90:179-190.
30. Casellas J, Ibáñez-Escriche N, García-Cortés LA, Varona L. 2008. Bayes factor between Student t and Gaussian mixed models within an animal breeding context. *Genetics, Selection, Evolution* 40:395-413.
31. Casellas J, Varona L. 2008. Between-groups within-gene heterogeneity of residual variances in non-competitive microarray gene expression data. *BMC Genomics* 9:319.
32. Casellas J, Medrano JF. 2008. Within-generation mutation variance for litter size in inbred mice. *Genetics* 179:2147-2155.

33. Fernàndez de Sevilla X, Fàbrega E, Tibau J, Casellas J. 2008. Effect of leg conformation on survivability of Duroc, Landrace and Large White sows. *Journal of Animal Science* 86:2392-2400.
34. Ramírez O, Tomás A, Casellas J, Blanch M, Noguera JL, Amills M. 2008. An association analysis between a silent C558T polymorphism at the pig vascular cell adhesion molecule 1 locus and sow reproduction and piglet survivability traits. *Reproduction in Domestic Animals* 43:542-546.
35. Casellas J, Medrano JF. 2008. Lack of Socs2 expression reduces lifespan in high-growth mice. *Age* 30:245-249.
36. Casellas J, Varona L, Ibáñez-Escriche N, Quintanilla R, Noguera JL. 2008. Skew distribution of founder-specific inbreeding depression effects on the longevity of Landrace sows. *Genetics Research* 90:499-508.
37. Casellas J, Piedrafita J, Caja G, Varona L. 2009. Analysis of founder-specific inbreeding depression on birth weight in Ripollesa lambs. *Journal of Animal Science* 87:72-79.
38. Ibáñez-Escriche N, Varona L, Casellas J, Quintanilla R, Noguera JL. 2009. Bayesian threshold analysis of direct and maternal genetic parameters for piglet mortality at farrowing in Large White, Landrace, and Pietrain populations. *Journal of Animal Science* 87:80-87.
39. Rincón G, Islas-Trejo A, Casellas J, Ronin Y, Soller M, Lipkin E, Medrano JF. 2009. Fine-mapping and association analysis of a quantitative trait locus for milk production traits on *Bos taurus* autosome 4. *Journal of Dairy Science* 92:758-764.
40. Fernàndez de Sevilla X, Casellas J, Tibau J, Fàbrega E. 2009. Consistency and influence on performance of behavioural differences in Large White and Landrace purebred pigs. *Applied Animal Behaviour Science* 117:13-19.
41. Fernàndez de Sevilla X, Fàbrega E, Tibau J, Casellas J. 2009. Competing risk analyses of longevity in Duroc sows with a special emphasis on leg conformation. *Animal* 3:446-453.
42. Fernàndez de Sevilla X, Fàbrega E, Tibau J, Casellas J. 2009. Genetic background and phenotypic characterization over two farrowings of leg conformation defects in Landrace and Large White sows. *Journal of Animal Science* 87:1606-1612.
43. Casellas J, Farber CR, Gularte RJ, Haus KA, Warden CH, Medrano JF. 2009. Evidence of maternal QTL affecting growth and obesity in adult mice. *Mammalian Genome* 20:269-280.

44. Van Melis MH, Oliveira HN, Eler JP, Ferraz JBS, Casellas J, Varona L. 2010. Additive genetic relationship of longevity with fertility and production traits in Nellore cattle using bivariate models. *Genetics and Molecular Research* 9:176-187.
45. Casellas J, Caja G, Piedrafita J. 2010. Accounting for additive genetic mutations on litter size in Ripollesa sheep. *Journal of Animal Science* 88:1248-1255.
46. Casellas J, Farber CR, Verdugo RA, Medrano JF. 2010. Segregation analysis of a sex ratio distortion locus in congenic mice. *Journal of Heredity* 101:351-359.
47. Medrano JF, Ahmadi A, Casellas J. 2010. Dairy Cattle Breeding Simulation Program (DCBSP v.4.9): A simulation program to teach animal breeding principles and practices. *Journal of Dairy Science* 93:2816-2826.
48. Casellas J, Noguera JL, Reixach J, Díaz I, Amills M, Quintanilla R. 2010. Bayes factor analyses of heritability for serum and muscle lipid traits in Duroc pigs. *Journal of Animal Science* 88:2246-2254.
49. Casellas J. 2011. Inbred mouse strains and genetic stability: a review. *Animal* 5:1-7.
50. Casellas J, Vidal-Roqueta D, Flores E, Casellas-Vidal D, Llach-Vila M, Salgas-Fina R, Casellas-Molas P. 2011. Epistasis for founder-specific inbreeding depression in rabbits. *Journal of Heredity* 102:157-164.
51. Casellas J. 2011. Bootstrap test for proportional hazard assumption on time-independent systematic effects of longevity data. *Journal of Animal Breeding and Genetics* 128:100-104.
52. Casellas J, Varona L. 2011. Effect of mutation age on genomic predictions. *Journal of Dairy Science* 94:4224-4229.
53. Fina M, Casellas J, Piedrafita J. 2011. Estimating abundance, survival and age structure of the Alberes cattle using recapture techniques. *Canadian Journal of Animal Science* 91:343-347.
54. Tomás A, Ramírez O, Casellas J, Muñoz G, Sánchez A, Barragán C, Arqué M, Riart I, Óvilo C, Noguera JL, Amills M, Rodríguez C. 2011. Quantitative trait loci for fatness at growing and reproductive stages in Iberian × Meishan F2 sows. *Animal Genetics* 42:548-551.
55. Esquivelzeta C, Fina M, Bach R, Madruga C, Caja G, Casellas J, Piedrafita J. 2011. Morphologic analysis and subpopulation characterization of the Ripollesa sheep breed. *Animal Genetic Resources Information* 49:9-17.

56. Casellas J, Ibáñez-Escriche N. 2012. Bayesian recursive mixed linear model for gene expression analyses with continuous covariates. *Journal of Animal Science* 90:67-75.
57. Muñoz M, Alves E, Corominas J, Folch JM, Casellas J, Noguera JL, Silió L, Fernández AI. 2012. Survey of SSC12 regions affecting fatty acid composition of intramuscular fat using high density SNP data. *Frontiers in Genetics* 2:101.
58. Cecchinato A, De Marchi M, Penasa M, Casellas J, Schiavon S, Bittante G. 2012. Genetic analysis of beef fatty acid composition predicted by near-infrared spectroscopy. *Journal of Animal Science* 90:429-438.
59. Casellas J, Gularte RJ, Farber CR, Varona L, Mehrabian M, Schadt EE, Lusk AJ, Attie AD, Yandell BS, Medrano JF. 2012. Genome scans for transmission ratio distortion regions in mice. *Genetics* 191:247-259.
60. Casellas J, Bach R. 2012. Comparison of linear, skewed-linear and proportional hazard models for the analysis of lambing interval in Ripollesa ewes. *Journal of Animal Science* 90:1788-1797.
61. Casellas J, Varona L. 2012. Modeling skewness in gene expression data analyses. *PLoS One* 7:e38919.
